

SEE WHAT THE LAB REPORT ISN'T SHOWING YOU

Go beyond individual lab values. Connect the patterns, understand the systems, and see the bigger clinical picture.

LabSmarts brings bio-individual ranges, pattern-based insights, and trends together so you can see what individual lab values may miss.

A LAB REPORT GIVES YOU NUMBERS

LAB INTERPRETATION THAT ADAPTS TO YOUR CLINICAL APPROACH

Start with the LabSmarts framework, then
personalize it to match your own approach.

CAPABILITY	WHAT IT GIVES YOU
 Bio-individual optimal ranges	Interpret results in the context of the individual
 Pattern-based insights	See relationships that may be missed marker by marker
 5-System overview	Quickly identify which systems need attention
 Focused clinical insights	Explore focused insights for Immune, Stress & Adrenal, Nutrients, and more
 My Markers & Sections	Add your own markers, ranges, and sections
 Comparison & trending	See meaningful movement across repeat testing
 Patient-ready reports	Turn complex findings into a visual report patients can understand
 PDF lab upload	Spend less time entering results
 Add your own logo	Strengthen your brand on every report

**YOUR MARKERS.
YOUR RANGES.
YOUR WAY.**

Customize LabSmarts to fit
your clinical practice.

Add Your Own Markers to This Test ⓘ

For markers on the lab report that LabSmarts does not cover yet. Defined once, then kept in My Markers for next time

Marker Name *	Value *	Units	Chart Type *
e.g. Lipase	e.g. 50	e.g. U/L	High or low is a concern

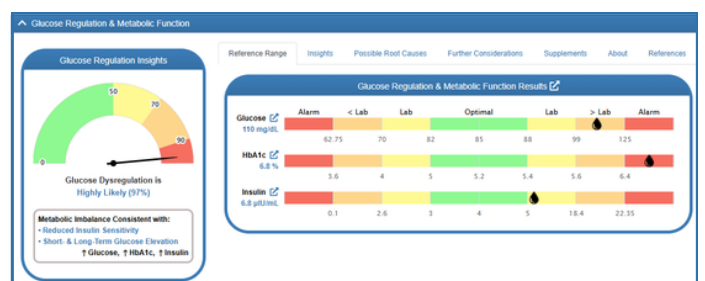

+ Add another numeric marker
 + Add a text marker

Optimal and Alarm are calculated at 1 and 3 standard deviations

**130+ BUILT-IN BIOMARKERS.
READY TO INTERPRET.**

Built-in optimal ranges, visual bar
graphs, pattern insights, and clinical
context across body systems.
